

Specialty Monitoring report Addendum

Training Commissioner: Health Education England: South West and Thames Valley Wessex (HEE SW TVW)

Education Quality Assurance Lead: Natalie Watson

Corrected December 2022

Action number (Requirement)	1. Progress towards report actions:
1. (P2)	<p>Action 1:</p> <ul style="list-style-type: none">• HEE SW TVW must provide a description of process and an assurance that patients that are treated by specialty trainees, but not consented by them, are able to decline treatment by a trainee if they so wish. <p>This Action was not reviewed at this time and the EQA team will undertake follow up QA activity to monitor progress against Actions.</p>
2 & 3. (P5)	<p>Action 2:</p> <ul style="list-style-type: none">• HEE SW TVW must provide complete records of training modules undertaken, including annual updates or Equality and Diversity training for TPD, ES and CS for both SW and TVW <p>Action 3:</p> <ul style="list-style-type: none">• HEE SW TVW must provide evidence which demonstrates how issues relating to training not completed for a period of time is dealt with, specifically in relation to the process for highlighting and addressing this. <p>The GDC have reviewed additional evidence provided by HEE SW TVW.</p> <p>In response to the first action, HEE SW TVW provided training records which demonstrate compliance across all educators and specialists as requested, so this action has been satisfied. We would welcome further explanation from HEE SW TVW as to how the deanery is assured that EDI training is up to date for all Educational and Clinical Supervisors, if specific records that relate directly to this are not held.</p>

	<p>In considering the second action, the data remains incomplete for the South West Deanery. We identified a number of gaps and it was unclear how these were being addressed. After considering all the information, we are of the view that we were not given a level of assurance that would mean this could be considered as met.</p> <p>The report is one that is combined across both deaneries, and therefore both regions would need to demonstrate compliance. P5 therefore remain as Partly Met.</p>
<p>4. (P18)</p>	<p>Action 4:</p> <ul style="list-style-type: none"> • HEE SW TVW must provide evidence of all assessors' records for both HEE SW and TVW setting out: <ul style="list-style-type: none"> -their Specialty -length of experience -training records including what training was completed in relation to the new training modules and when they were completed -date of renewal of registration with GDC/GMC <p>The GDC have reviewed additional evidence provided by HEE SW TVW.</p> <p>We consider that this Action has now been addressed. Requirement P18 is Met.</p>
