

Guidance for dentists qualified in Germany

Application for registration as a Dentist under Section 15(1)(b) of the Dentists Act 1984

This guidance should be read in conjunction with “Guidance Notes for EEA-qualified Dentists”.

Evidence of Primary Dental Qualification from Germany

If you have an appropriate European Diploma for the purposes of Schedule 2 of the Dentists Act 1984, you will be eligible for registration with the GDC under Section 15(1)(b) of the Dentists Act. An appropriate European Diploma is one which falls under one of the following categories A-E:

Qualifications listed in Annex V, point 5.3.2 of Directive 2005/36/EC

- A** If you have a diploma in dentistry which was granted in Germany, this will be an appropriate European diploma if you can provide evidence of the qualification listed in Annex V, point 5.3.2 of Directive 2005/36/EC¹ as follows:

Evidence of formal qualifications:	Zeugnis über die Zahnärztliche Prüfung
Body awarding the evidence of Qualifications:	Zuständige Behörden
Professional title:	Zahnarzt
Your training began on or after this date and your diploma was awarded on or after this date (reference date):	28 January 1980

You will not need to provide an EEA Compliance certificate. If your qualification is less than the 5000 hours required by the directive but was awarded before 18 January 2016 this will also be a qualification entitled to automatic recognition.

- B** However, if your diploma is listed in Annex V point 5.3.2 of the Directive but was granted **before the reference date², 28 January 1980 (or on or after that date where the training was commenced before that date)³** it is not an appropriate European diploma **unless** either

- (a) You can provide an EEA Compliance certificate from the competent authority of Germany stating that the diploma guarantees that the holder's training satisfies the requirements of article 34 of the Directive (requirements for basic dental training); or
- (b) You can provide an EEA Compliance certificate of a competent authority of any relevant European State stating that you have effectively and lawfully practised dentistry in that State for at least three consecutive years during the five years preceding the date of issue of the certificate

¹ Directive 2005/36/EC on the recognition of professional qualifications

² The reference date for each state is listed in Annex V, point 5.3.2

³ Diplomas listed in Annex V where training commenced before 28 January 1980

Qualifications not listed in Annex V point 5.3.2 of the Directive

- C** If you have a diploma which was granted in Germany **on or after the reference date of 28 January 1980** which is not evidence of training commenced by the holder before that date, and which is not listed in Annex V, point 5.3.2 of the Directive, this is not an appropriate European diploma unless you can produce an EEA Compliance certificate issued by a competent authority of Germany certifying that the diploma—
- (a) is evidence of training which satisfies the requirements of article 34 of the Directive; and
 - (b) Is treated by Germany as if it were a qualification listed in relation to Germany in Annex V, point 5.3.2 of the Directive.
- D** If you have a diploma granted in Germany **before 28 January 1980 (or on or after that date where training commenced before that date)** and which is not listed in Annex V, point 5.3.2 of the Directive, this is not an appropriate European diploma unless you can produce an EEA Compliance certificate as described in paragraph B(b) or paragraph C above.

Qualifications from the former German Democratic Republic

- E** If you have a diploma in dentistry which is evidence of training commenced before 3 October 1990 in the former German Democratic Republic, this is an appropriate European diploma if—
- (a) you can provide an EEA Compliance certificate of the competent authority of Germany certifying that you have effectively and lawfully practised dentistry in Germany for at least three consecutive years during the five years preceding the date of issue of the certificate; and
 - (b) you are authorised to practise dentistry throughout the territory of Germany under the same conditions as holders of the qualification listed in relation to Germany in Annex V, point 5.3.2 of the Directive.

My qualification is from Germany but it does not meet the requirements above for an ‘appropriate European diploma’ for the purposes of the Act. Do I have an alternative route to registration?

If you are an exempt person and you do not meet the criteria above under Section 15(1)(b), you may apply for registration under 15(1)(ba) of the Act for recognition of your qualification under the ‘general systems’.

The GDC will provide you with further guidance on this route to registration. Information on this route can also be found in the GDC’s guidance document *“Frequently Asked Questions - Application for registration as a Dentist under Section 15(1)(ba) Dentists Act 1984”*.

EEA Compliance Certificate and Certificate of Current Professional Status:

This must be issued by the Competent Dental Authority for Germany. There are different competent dental authorities for each region of Germany. Details of each authority can be found using the link below from the [European Commission’s website](http://ec.europa.eu/growth/tools-databases/regprof/index.cfm?action=view_document&id_document=32):
