20th September 2017

Dear Krutika

Plymouth University Peninsula Schools of Medicine and Dentistry (PU PSMD)

BSc (Hons) Dental Therapy and Hygiene Report 2017

We were delighted to receive the very positive report following the GDC inspection of our new DTH programme. The report recognises our commitment to the careful development of our provision, and will encourage our team in the further enhancement of the student experience and quality of education within the new programme.

We acknowledge the visiting team's comments regarding the therapy based clinical procedures and are in the process of reviewing our patient triage processes so that patients requiring restorative treatment are allocated more effectively. We look forward to updating you on our progress in the 2018 annual monitoring cycle.

We would like to thank the visiting team for their careful approach throughout the series of visits, which have helped us to identify our strengths and focus on areas where we can improve.

With very best wishes

Prof Christopher Tredwin
Head of Peninsula Dental School
