Information available under the General Dental Council publication scheme

Effective from	23 November 2020
Next review	23 November 2021

The table below sets out the information the General Dental Council (GDC) publishes as a matter of routine under its publication scheme.

Publication scheme charges

Most of the information we provide under our publication scheme is available on our website free of charge.

Our <u>Information Access Fees Policy</u> outlines the legislation that applies to the information held by the GDC, when the GDC will charge a fee to provide information, and how any fee will be calculated.

If you require printed versions of the information available on our website, or of information which is archived and no longer on our website, we reserve the right to impose a charge for providing this information in paper copy. In these instances, we will issue a fee notice (payable in advance of complying with the request) charging for photocopying or printing at a rate of 10p per sheet of paper. Postage will be charged at cost. A decision to charge disbursements should be agreed by the Information Governance Manager.

Hearing transcripts

The GDC does not produce publicly available versions of hearings transcripts as a matter of routine. If you wish to obtain a transcript of a Fitness to Practise (FTP) panel hearing, Registration Appeal hearing or Specialist List Appeal hearing, we reserve the right to charge the full cost to the GDC of producing a public version. These costs are variable and will include the cost of our quality assurance processes to ensure that information we regard as confidential – for example, information about a registrant's health, and the names and contact details of patients or vulnerable witnesses - are removed prior to publication.

Please contact us through our <u>webpage</u> if you are still unable to find the information you are looking for after reading through the publication scheme.
